

St Clement Cemetery Center Line, Macomb County Michigan

St Clement Cemetery Older Stones Index and Veterans

By Wesley Arnold humble historian

**Note To locate a name Quickly just hit Ctrl F and type in name
wanted**

I was told a long time ago that perhaps 25% of the persons buried here no longer have a marker visible due to aging, weatherization, plant growth, negligence, removal or vandalism. I was also told by a former caretaker that there were many unmarked and perhaps unrecorded burials in this cemetery many of which are children. Many stillborns and day old babies are buried here and virtually none have a marker. Due to circumstances on occasion there may have been no entry into the record or in many cases the page is now missing or commonly unreadable.

I note that this not the fault of the current caretakers. In past years the cemetery was neglected. Families were supposed to maintain the family plots. But families moved away or neglected the lots. It got so overgrown that it was referred to as a jungle. The Local priest even encouraged people to remove their dead and have them reburied at Mt Olivet, Mt Elliot or others. Even empty caskets were left in the ground.

It was reported to me that some years saw more removals than there were burials.

Early records were not well kept. Careless smoking resulted in the destruction of many records. Wesley Arnold personally saved the record book which was about to be thrown out about forty years ago. About 2002 he went to the office to check on a record and observed that they were still using the old Latin record book which was so deteriorated that when pages were turned they would crumble. So Wes came back with his camera and digitized the cemetery records. Then he made several CDs for staff which included a program which let them search for the record and print the record without using the old books. He was not even a member of the Parrish so they really appreciated the work that Wesley Arnold put into the project of saving the records at no cost to the parish. Now all he asks is for people preserve the records for future generations.

We need good fotos of the old church interior.

St Clement Burial Records Index 1850-1942

Your help is needed to record the true facts about our wonderful pioneers who labored

long and hard for a better future for their children. I would like to also record the biographies of our pioneers. You may have information about how they lived, who they were, what they did. You can prevent your family's history from being lost forever by writing it down and sharing it with me. Old pictures are needed to tell the whole story. Loan me an old pictures for just a short time so I can copy them . If you don't preserve old pictures and history, in time it gets thrown out in the trash or forgotten and lost forever. Please help me to preserve our history. For more information contact Wesley Arnold humble historian e-mail wesleyarnold@yahoo.com
Check out my free historical website at **macombhistory.us**

St. Clement Church Records

The writing is often poor, not clear, difficult to read and in Latin. I had to buy Latin books. Latin has 85 verb forms and numerous endings. It takes years to learn. It would have been easier if they had used the International Vocabulary (Esperanto) which is the easiest language in the world instead, which is in over 100 countries and which is learnable in a short time. One can learn the past, present and future of every verb in the International Language in just 3 minutes. The 16 rules of grammar have no exceptions in contrast to all other languages which have hundreds of grammar rules to memorize and exceptions. See easiestlanguage.info for more information on that topic.

This index is alphabetized by family name. I have made a separate version which shows names listed by year. That is at macombhistory.us (click on Cemeteries) I also have done an index to the older grave stones. Both of these and family records are needed to ascertain the spelling and facts.

The record writers should be whipped because of their disregard for clear writing and poor record keeping. Hundreds of names are unreadable. There are years without records. 1850-1853, 1855, 1907-1911, 1922-1928 No known backup records were made. They wrote in Latin and Latinized peoples names.

Just because a name is listed here does not mean that the remains are still in the cemetery or ever were. Many were buried elsewhere or removed. There was a time when each family was supposed to maintain the graves by cutting the grass maintaining the stones and wooden markers. Who maintained the rows between the graves? Sometimes no one. The cemetery fell in such a state of unkeptness that the priest felt that the community should use other cemeteries such as Mt Olivet so he encouraged people to have their loved ones buried there. Many folks actually removed their loved ones and moved them out. In some years this cemetery actually had more bodies removed than were buried. Norman Smith related to me that sometimes funeral directors took the bones out but left the casket. Later when digging for a new burial the old casket was rediscovered halting all work until the truth was discovered often causing more grief to families who just lost a loved one. There are few surviving records of removals. And this Cemetery was been closed to burials several times. It is quite possible that on rare

occasion families buried loved ones in secret. People sometimes just buried their loved ones and placed a wooden marker and a few stones piled onto the grave site. Now over a hundred years later all surface indications are gone. In fact Norman Smith indicated that many grave stones were buried and had to be re erected. There may be yet some stones buried. Back many years ago there were no cement vaults. Mostly wooden boxes. In the very early days it is possible that in times of hardship only a shroud may have been used.

After many years the wood boxes rot and cave in leaving a depression. Some of these depressions can still be partly seen in the old part. Several of the old stones need repair, support, revitalization and a coating of stone sealer. I am proud of the folks at St Clement. This is partly why I as an unpaid Historian have devoted hundreds of hours working on this historical project. Lastly these names have to be studied, and revised into correctness based on handwriting, and other records. This will take a few more years of research. Rather than wait to publish, here is the rough draft as is. Consult the negative to see the actual record. The negative number is the last entry on each line. I plan to put the fotos up on macombhistory.us soon.

NOTE on a recent visit St Clement cemetery office refused to share death year from 100 years ago stating that the historian was not a family member and was not entitled to them. Interestingly though, this particular historian twice saved their records and may have done more research than anyone else. Once from the dumpster and the second time from the effects of crumbling due to age. This cemetery actually uses this historians records as St Clement has lost its records again. Since they refused to share with me the death date of a person who died over 100 years ago I no longer see why I should give them information. They have refused help to the historian who saved their records twice. I will make it available in this book and on macombhistory.us to you instead. I discovered that I have more old records than they have. What a shame that they have stopped a researcher in his tracks. Therefore I have stopped doing research on this cemetery. But even these narrow minded people aren't as bad as the officers of the Warren "Hysterical" society who without just cause or even a public hearing stole 5-9 expensive stones from Warren Union Cemetery. These memorials were donated by families to honor deceased persons they cared about. One memorial listed 30 or our Warren area soldiers who had died and most of whom are buried there. Now these men have no memorial naming them ad this was the only memorial naming them. So the officers of the Warren "Hysterical" society have stolen our community's history and disrespected soldiers who died maintaining our freedoms. They also stole an expensive Unknown Soldier memorial right off of a grave and they stole a veterans memorial and an expensive children's memorial. When a police report was made they admitted that they did this but told the police they placed them in storage. And they do not own the cemetery or those memorials. Since when do you rob a cemetery or someone elses property and place the expensive stones in "storage" most likely to be sold. If you are interested in the full story go to macombhistory.us and click on Cemeteries. Many of us veterans are in full disagreement with these disrespectful actions and feel these cemetery desecrators should be persecuted. (spelling is correct)

Here is the alphabetical Index. Note some of the handwriting was unreadable so I have sometimes written what the handwriting looks like even though it may not make sense. So you must in some cases guess what the printed name here may really be.

18 Apr can't read 1879 negative 41 I was going to research this to get the name but was

stopped in my tracks by the cemetery office.

As appaling as it may be the truth is that St Clement has managed to lose many records. How does one lose pages out of a book and now the entire book. Where is the back up copy? Why can't record keepers print so that the record is readable? Isn't this just common sense. But even worse it seems the keepers of the records of Warren Union Cemetery which were the responsibility of the Methodist church and St Paul believe it or not are so much worse. The Methodist Church claims now it has no records at all. Ann chairwoman of the St Paul cemetery committee has refused to let me see the church records. (which I doubt even exist) And worse now neither of these churches appears to care. I asked both more than once and was turned away. And I am a volunteer caretaker for the cemetery for St Paul.

One man just me humble historian has stepped forward and is combing county, township and private death records and adding them to the above St Clement Index and to his Warren Union Cemetery Index. So you may see names added to both soon.
